

IACP Net Benefits You, Your Agency and Your Community

Effective law enforcement leaders choose IACP NetSM to find and share innovations, policies and solutions for the business side of policing. With increased effectiveness and efficiency, members benefit personally, as do their departments and communities. With continued growth since 1991, IACP Net's expanded service areas include: databases, networking services, current affairs, portals, publications, and more. Improve your performance, increase your agency's effectiveness, and save your community's tax dollars.

IACP Net benefits agencies and their communities by providing:

- Increased funding through revenue-generating ideas and funding notices
- Reduced costs with cost-saving programs and notices of free and low-cost opportunities
- Better problem-solving capability throughout the department's leadership
- Overcome public objections and obstacles to new ideas by demonstrating what works
- Strengthened public trust through better decision making
- Access to leading-edge communities
- Augmented staffing resources with IACP Net's network of professionals
- Positive national exposure for the agency and community
- Immediate results from the first day of access
- Pricing that's easy to budget with no budget overruns

Individuals using IACP Net experience benefits like:

- Increased productivity
- Strengthened leadership skills
- Elevated job performance and better performance reviews
- Positive exposure locally and nationally
- Enhanced professional and public image
- Heightened awareness of national trends and policy issues
- Greater ability to overcome objections and obstacles
- Superb promotions, some to chief of police
