Conference Update

IACP Net representatives will showcase the benefits of IACP Net at two conferences in July. Please visit us in booth #513 at the FBI National Academy Associates 2007 Conference in Phoenix, Arizona, July 15-17, 2007. We will also be exhibiting at the Southern Police Institute Alumni Association Retraining Conference in Saint Paul, MN, July 24, 2007. Stop by to learn more about using IACP Net or to let us know how IACP Net helps you.

Equipment Maintenance

The IACP Net servers are being moved to a new location on June 30, 2007. This move may require departments who have limited access to the Internet to enter a new IP 204.73.91.34 into their firewall's list of approved web sites, effective 6/30/07. If you have any questions, please contact customer service at 800.227.9640. We apologize for any inconvenience this may cause.

"Electro-Muscular Disruption Technology: A Nine-Step Strategy for Effective Deployment"

Electro-Muscular Disruption Technology (EMDT) is a group of devices that use a high-voltage, low power charge of electricity to induce involuntary muscle contractions that cause temporary incapacitation. More police departments are using EMDT on resisting subjects, with a minimum of serious injuries or lethality. The increased use of these weapons, however, has raised concerns about the safety of EMDT, as well as the liability and risks associated with deployment of these products. This document, published by the IACP, is located in the Core Database under document #590868.

"Valley "Are You Ok?" Computer Call Back System"

This policy is taken from the Lewiston, Idaho, Police Department Policy Manual. The purpose of the Valley "Are You Ok?" Program is to provide a method for checking on the well being of Lewiston citizens who might face emergencies at their residence. The program will also serve the needs of citizens in Clarkston, Asotin County, Washington and Nez Perce County, Idaho; with the Lewiston Police Department's Community Programs Officer serving as the program coordinator. The program utilizes computer technology to contact the participants daily by telephone. This policy, which includes the department's RUOK Field Interview Form, is located in the Policies Database under document #591164.

For complete rules, please see the Quest-Response Recognition Program information sheet.

CURRENT AFFAIRS

Internet Crimes Against Children Expansion (Phase II)

The Office of Juvenile Justice of Delinquency Protection's Internet Crimes Against Children Task Force Program helps state and local law enforcement agencies develop an effective response to technology-facilitated exploitation of children including online enticement and child pornography. This response encompasses forensic and investigative components, training and technical assistance, victim services, and community education. Internet Crimes Against Children Task Forces have been established throughout the nation. For more information on this and other grant opportunities, please see the IACP Net Funding section.
