Forensic Magazine Now Available!

IACP Net is proud to announce the addition of *Forensic Magazine*. Published six times a year, *Forensic Magazine* focuses exclusively on the field of forensics, featuring valuable trade tips, invigorating articles and more. Current and back issues can now be located in the IACP Net Publications section.

Conference Update

Thank you to all who stopped by the IACP Net booth at the FBINAA Conference in Phoenix, Arizona and the SPIAA Retraining Conference in Saint Paul, Minnesota. Congratulations to Chief James Montalbano from the Sleepy Hollow, Illinois, Police Department and Chief Frank Mercurio from the Avon Park, Florida, Police Department. They are both winners of one-year complimentary IACP Net memberships from the drawings held at each conference.

Representatives will showcase the benefits of IACP Net at the Midwest Security & Police Conference/Expo in Rosemont, Illinois, August 7-8, 2007. Stop by booth #632 and learn more about IACP Net and let us know how the site benefits you.

Quest-Response Recognition Program

There's just one more month to qualify for the 2007 IACP Conference travel package to New Orleans, Louisiana. Respond to two or more Quests in August and you will be entered in the drawing for up to \$1,000 to reimburse travel expenses as well as one paid conference registration up to \$350 in value. For complete rules, please see the Quest-Response Recognition Program information sheet.

IACP Net Alert highlights some recent additions to the online information resource for the business side of policing, www.iacpnet.com.

"5 Phases of the "Active Shooter""

Shooting incidents have become so common that law enforcement has coined the term "Active Shooter" while coming to the realization that waiting for a SWAT team to respond to such a scene would cost lives. The Active Shooter requires an immediate, effective and efficient act of courage. This is one time when a police officer who is on-duty or off needs to ride to the sound of gunfire and end the threat

with a well placed bullet as soon as possible. There are five phases of the Active Shooter phenomenon. More information on these phases can be located in the Core Database under document #591373.

"Law Enforcement Officers Safety Act"

This policy is from the Howard County, Maryland, Department of Police Special Orders Manual. It is the policy of the Howard County Department of Police to comply with the Law Enforcement Officers Safety Act (LEOSA). This is to include a weapons qualification process for retired police officers from the Department and guidelines for HCPD officers contacting armed individuals carrying weapons under LEOSA. This policy is located in the Policies Database under document #591469.

CURRENT AFFAIRS

Free - Incident Command Training Software

Incident Commander is a PC-based software simulation that models real-world situations within a community, allowing for training at the management level for a critical incident. It is based upon the command structure mandated by FEMA in its rules for National Incident Management System compliance, notably the Incident Command System. The simulation offers a realistic representation of crisis management with realistic scenarios; realistic time delays and realistic resource limitations, all set in the arena of the players' county or local region. For more information on this and other grant opportunities, please see the IACP Net Funding section.
